

Robot Duels Test Plan

Overview: Test the functionality of Robot duels website

Links: [Robot Duels](#)

Test Criteria:

- Make sure draw button works
- Click on robots to see if it adds to your team
- Can add 2 robots to your team
- Gives you a win if you win and a loss if you lose
- Check if robots duel correctly
- See if see all bots button works

Entry Criteria:

- Test criteria provided.
- Dell intel core i5 7th gen processor.

Exit Criteria:

- Cannot see all bots when the see all bots button is clicked
- The user is provided with a loss even when they win

Other Details:

- Windows 10
- Version 115.0.1901.200 (Official build) (64-bit)

Test Case: All robots can be viewed when the see all bots button is pressed

Overview: This test will verify if the see all bots button works

Steps:

1. Navigate to [my github](#)
2. Download the files at the above link

3. Open the files in a coding IDE
4. Run npm start in the command line for your IDE
5. This will open up another page on your browser
6. On the page click on the "See all bots" button

Test Postconditions:

- The button is clickable but does nothing

Bug Report: See all bots button

Overview: The See all bots button does not work as intended

Steps to Reproduce:

1. Navigate to [my github](#)
2. Download the files at the above link
3. Open the files in a coding IDE
4. Run npm start in the command line for your IDE
5. This will open up another page on your browser
6. On the page click on the "See all bots" button

Expected Result: A group of playable bots should appear and the user should be able to see all of them

Actual Result: No items appear anywhere after button click

Environment:

- Edge version 115
- windows 10
